

# Computing Charter for Reception and Key Stage 1

I want to feel safe all of the time.

I will only open pages that an adult says they are safe.

I will tell a teacher if I see something I don't like online.

I will always be polite and friendly on the internet.

I will only not tell people about myself online (I will not tell them my name, anything about my family, where I live or phone numbers).

I will keep my password secret.

*I have read and understood that if the ICT Charter is broken in any way, my teachers have the right to remove my ICT privileges for an agreed period of time.*
