

Computing Charter for Key Stage 2

In school I have access to computers, the Internet, the Learning Platform, online forums and digital technologies. I will use these in line with the following rules which will help to keep me safe and help me to be fair to others.

I will only use the school's computers for school work and homework.

I will only look at and change my own files. I will not look at, or change, other people's files without their permission.

I will keep my logins and passwords secret.

I will not use anyone else's logon and password or use computers left logged on by someone else.

I will ask permission from an adult before using the internet.

I am aware that some websites and social networks have age restrictions and I will respect those.

I will always ensure that the messages I send, or information I upload, is friendly and polite.

I will not share with others my home address, phone number, send a photograph or videos, or any other personal information which may be used to identify me.

I will tell a responsible adult/teacher if I see anything I am unhappy with or if I receive a message I do not like. I will not respond to it.

I have read and understood that if the ICT Charter is broken in any way, my teachers have the right to remove my ICT privileges for an agreed period of time.
